Founded in 1942, Strathmore Products provides customized coatings and solvents to a wide range of customers in the rail, oil and gas, marine, and other industrial markets. Whether it's a product, a process, or a service, our company is committed to continuous improvement. That's a commitment shared from the top down. Since its inception, Strathmore has sustained a long history of growth. To support our solutions and service, we maintain manufacturing facilities in Syracuse, New York; Atlanta, Georgia; Houston, Texas; and Longview, Texas—each with fully equipped research and development capabilities. We have a distribution and warehousing facility in Longview, with additional third-party distribution points in Miami, Florida; Laredo, Texas; China and Europe, helping us to better market our solutions globally. We also have direct sales representation throughout North America and China.
